

## **Starehe Girls' School**

### Provision of Staff Housing

**There are around 30 members of staff at Starehe Girls Centre and of these, only 10 are able to stay on site due to a shortage of staff housing.**

Starehe Girls' Centre is situated roughly 2 miles from the main road and therefore any public transport. This presents a major challenge for teachers not living on site to reach the school. Most teachers' salaries do not stretch to car ownership, which in Kenya is extremely expensive due to a lack of domestic car industry. This unfortunately leads to many occasions when classes are left without teachers due to transport issues, which greatly impacts on the girls' education.

A breakdown of figures for the staff housing needs, which is planned in five stages over the next three years, is available on request.

**Please contact Lisa Robinson** on 020 7934 7023 or email [lisa.robinson@starehe.org](mailto:lisa.robinson@starehe.org) for further information if you are interested in funding this project in part or in full.
